PROJECTS / OPEN-SOURCE

Chief Minister's 54-Point Reports System (CM-54RS) | Link   *Html, Css, SCSS, Blade, JavaScript, JQuery, Laravel Framework*

1. Designed and developed the "CM-54RS" a comprehensive platform dedicated to generating reports for the Chief Minister.
2. Collaborated with a cross-functional team to create a user-friendly interface for data input and report generation.
3. Implemented secure data management and processing functionalities, ensuring the accuracy and reliability of reports.
4. Improved data entry processes, reducing manual effort significantly

food-Ordering-system | Link   *JavaScript, Hack, CSS, PHP*

1. Developed a responsive and user-friendly food ordering system from scratch using HTML, CSS, and JavaScript for the front end.
2. Utilized raw PHP for back-end functionalities, including cart management and order processing.
3. Implemented a dynamic cart system, allowing users to select items and add them to their cart.
4. Collaborated with a team to create an intuitive and visually appealing user interface, enhancing the user experience.

Mini Projects | Link   *HTML, JavaScript, CSS*

During my internship at OASIS INFOBYTE, I focused on web development tasks, enhancing my JavaScript, HTML, and CSS skills. I completed four key projects:
1. Scientific Calculator
2. Tribute Page
3. To-Do List Application
4. Login Authentication System
